9 partners developed an e-learning training course, targeted to Erasmus trainees and SMEs and aimed to develop the entrepreneurial mindset of mobile students. A placement in a small enterprise offers students a special perspective on entrepreneurship: they will perform a diversity of tasks while meeting all employees and especially the owner of the enterprise. With the Uni-Key online course they gain a deep understanding of the company's structure and entrepreneurial skills.

#### **Uni-Key learning modules:**

- Welcome! Student mobility and entrepreneurship into perspective
- Ready to Go! Plan an internship abroad
- Plan 2 Succeed! Self-organisation, problem-solving and financial issues
- Have you heard? Deal with confidentiality and ethically challenging situations
- I have an idea...! Identify cooperation opportunities between home and host environment
- Turn it around! Deal with under-challenge and overstress situations
- Dare to change! Overcome your own reluctances
- Enjoy success! Report internship activities, manage re-integration (follow-up) process
- How to mentor international interns and staff (module targeted to employers)

## Key project results:

- 7 modules for international students

- "On-line Erasmus Academy": Exploitation of results via partnerships and future investments

#### We enjoy positive feedback by our learners!

Very good. Easy to read, easy to understand. Enjoyable!

I liked the task: "Getting to know each other" because I am very interested in the stories of other students.

The module was interesting and easy to carry on.
The questionnaire was a useful tool to reflect about oneself's motivation, capacity and knowledge on being entrepreneurs.

This course is amazing and this is really clear from the first module.

I think it is an excellent idea to include videos in each module and it is also a good idea to include a video of a student who develops some internships abroad.

I like this module Every time, no matter what we do, we need to think about budget, the costs and a good plan is necessary!
